

ULOMA ENYOGASI

[Frontend Developer](#)

[LinkedIn](#) | [Github](#) | +1 561-563-3740 | Ejuloma07@gmail.com | Florida, USA.

[My Portfolio](#)

Frontend Developer skilled in React, TypeScript, Firebase, JavaScript, HTML, CSS, and REST APIs, with experience building responsive, user-focused web applications and implementing secure authentication, API integrations, and scalable front-end solutions. Proficient in developing clean, maintainable code and delivering intuitive user experiences using modern web development best practices. Complimented by an MBA in Business Leadership & Management, bringing a product-oriented mindset and the ability to align technical solutions with business goals, operational efficiency, and key performance indicators (KPIs) to build impactful, data-driven applications.

Professional Experience

[Summarist Virtual Internship](#)

[Remote](#) | [May 2026 - July 2026](#)

[Frontend Developer](#)

- Architected a modular React.js component library featuring 10+ reusable UI components to enforce design consistency and reduce code duplication.
- Implemented a Firebase Authentication modal flow instead of traditional redirect-based sign-up, keeping users engaged in the browsing experience without disruptive page changes.
- Integrated RESTful APIs via Axios with robust retry logic and custom error boundary handling, maintaining sub-2-second load times.
- Configured a Firestore data schema that structured book summaries, user profiles, subscription data for optimized queries that supports a library of 20+ book summaries with sub-second load times.
- Integrated Stripe billing through Firebase Extensions to handle subscription lifecycle(checkouts, webhooks, and customer portal) without building custom backend billing logic.
- Automated the deployment pipeline via Vercel's CI/CD integration, reducing deployment time from manual processes to under 2 minutes per push, enabling faster iteration cycles.

[Athletic Operations](#)

[Lynn University](#) | [August 2024 - Present](#)

[Assistant Director of Basketball Operations](#)

- Leveraged software tools like Workday and Teamworks to analyze operational data and streamline scheduling workflows across 60+ events.
- Prepared and analyzed reports and present findings to senior leadership, translating data using technologies like JustPlay, Synergy Sports and HUDL while providing clear recommendations and action plans.
- Collaborate with athletic staff and university departments to resolve operational issues and keep programs on schedule.
- Lead time-sensitive game operations and adjust plans in real time to maintain smooth execution.

Projects (personal)

[Personal Website: \[Live Demo\]\(#\) | \[Github Link\]\(#\)](#)

- My personal website highlights my programming skills and also contains the source code and website links for some of my projects.

[E-Commerce Library Project: \[Live Demo\]\(#\) | \[Github Link\]\(#\)](#)

[Created a fully functional search platform for movies](#)

- Built a responsive E-commerce library using the book API, optimizing performance with debounced search and cart functionality, React Query caching for efficient data fetching, and state management to persist users' favorite books.

Technical Skills

Programming Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, TailwindCSS, Firebase, NextJS, Redux, React Query, React Hook Form

Tools & Other platforms: Vercel, GitHub, VsCode, Stripe, React Testing Libraries, Resend, EmailJS

Education:

Frontend Simplified Institute | [Certificate](#)

[October 2025 - October 2026](#)

Software Engineering

Degrees: MBA in Business Leadership & Management, Lynn University, 3.87 GPA.

Additional tools

State management, testing setup, deployment strategy.
